Education

Korea University

Seoul, South Korea

PH.D. IN COMPUTER SCIENCE AND ENGINEERING

Sep. 2016 - Feb. 2020

- Supervisor: Jaegul Choo, Professor, Graduate School of Artificial Intelligence, KAIST
- Thesis: Fault Detection and Classification of Short-Term Time-Series Data via Deep Neural Networks

Bangladesh University of Engineering and Technology (BUET)

Dhaka, Bangladesh

M.ENG. IN COMPUTER SCIENCE AND ENGINEERING

May 2008 - Sep. 2013

International Islamic University Chittagong (IIUC)

Chittagong, Bangladesh

B.Sc.ENG. IN COMPUTER SCIENCE AND ENGINEERING

Apr. 2004 - Feb. 2008

Skills

Expertise AI, LLM Reasoning, Responsive AI

Programming C/C++, Python, PyTorch framework

Languages Bengali, English, Korean

Others LaTeX, git, Docker, Apptainer

Work Experience

Daffodil International University

DSC, Birulia, Ashulia, Savar, Dhaka

ASSOCIATE PROFESSOR

Jan. 2026 - Current

- Teaching undergraduate courses, mentoring students, and fostering their professional development.
- Mentor students on machine learning, AI problem solving, experimental reasoning, and competition strategies.
- Engage in the departmental AI-enabled initiatives to enhance teaching effectiveness and academic productivity, and to promote AI innovation and student engagement.
- Contribute to problem setting, evaluation, national team selection, training, and mentoring of high-performing students in Artificial Intelligence and Machine Learning.
- Contribute to the preparation and compliance of academic programs with Bangladesh Accreditation Council (BAC) accreditation standards.

Daffodil International University

DSC, Birulia, Ashulia, Savar, Dhaka

ASSISTANT PROFESSOR

Jul. 2024 - Aug. 2025

- Teaching undergraduate/graduate courses, mentoring students, and fostering their professional development.
- Contributed to the preparation and compliance of academic programs with BAC accreditation standards.
- Organized AI competition activities to enhance student participation in applied artificial intelligence learning.

EnterTake Co., Ltd.

Seoul, South Korea

RESEARCH ENGINEER

Jan. 2024 - Jul. 2024

- Development of a personalized service web & app platform based on cosmeceuticals.

Kim Jaechul Graduate School of Artificial Intelligence, KAIST

Daejeon, South Korea

POSTDOCTORAL FELLOW

Dec. 2021 - Dec. 2023

- Development of deep learning models for medical image analysis tasks.
- Time series data analytics.
- Providing guidance and supporting junior researchers within our research group.

Dhaka Power Distribution Company Limited (DPDC)

ASSISTANT/SUB-DIVISIONAL/EXECUTIVE ENGINEER

Dhaka, Bangladesh

Mar. 2009 - Nov. 2021

- Present and support the IT Head and other top management in preparing IT strategies.
- Direct technological research by studying organization goals, strategies, practices of DPDC.
- Develop and implement necessary steps for the introduction of useful new technologies and ideas in DPDC.
- Maintains professional and technical knowledge by attending educational workshops, reviewing professional publications, and so on.

Department of Computer Science and Engineering, BUET

TEACHING ASSISTANT

Dhaka, Bangladesh

Jun. 2008 - Mar. 2009

- Worked under several senior faculty members and helped them perform various academic activities.
- Involved in a number of projects such as an SQL Query Judging System, and an SSO (Single-Sign-On) networking system for both Linux and Windows using LDAP and SAMBA implemented in the Department.

Certifications

Aug. 2026	Endpoint Management & Microsoft Intune: The Modern Device Estate, ImpactEra	Online
Aug. 2026	AI Innovation with Microsoft Copilot, ImpactEra	Online
Jul. 2026	AI Agents & Copilot Studio: Building Autonomous Workflows at Scale, ImpactEra	Online
Jul. 2026	AI-Driven Workplace: Microsoft 365 Copilot in Production, ImpactEra	Online
Jun. 2026	AI-Powered Cloud Transformation, Redington & ImpactEra	Online
Jun. 2026	Gemini for Google Workspace and Productivity, Redington & ImpactEra	Online
Jun. 2026	MCP and Agentic AI, Redington & ImpactEra	Online
Jun. 2026	Building AI Agent with Copilot Studio, JetBrains	Online
Jun. 2026	AI Foundry Essentials, Redington & ImpactEra	Online
May. 2026	AI-Powered Higher Education, Arizona State University	Coursera
Apr. 2026	Explainable AI for Everyone, Edureka	Coursera
Oct. 2025	Responsible AI for Everyone, edureka!	Coursera
Apr. 2025	AI Agents and Agentic AI with Python & Generative AI, Vanderbilt University	Coursera
Feb. 2017	Machine Learning, Stanford Online	Coursera
Jun. 2016	Coursera Mentor Community and Training Course, Coursera	Coursera
May. 2016	Python for Everybody (Specialization), Coursera	Coursera
Apr. 2016	Data Science (Specialization), Coursera	Coursera
Feb. 2016	Red Hat Certified Architect (RHCA), Red Hat	Red Hat
Oct. 2014	IT Engineers Examination (ITEE), Level 2 FE (passed in the first attempt)	Dhaka, Bangladesh

Conference Presentation and Invited Talks

The Thirty-sixth Annual Conference on Neural Information Processing Systems (NeurIPS 2022)

New Orleans, USA

WAVEBOUND: DYNAMIC ERROR BOUNDS FOR STABLE TIME-SERIES FORECASTING

Nov. 2022

The Thirty-sixth Annual Conference on Neural Information Processing Systems

New Orleans, USA

MINING MULTI-LABEL SAMPLES FROM SINGLE POSITIVE LABELS

Nov. 2022

IEEE Conference on Computer Vision and Pattern Recognition (CVPR)

Virtual (COVID-19)

NOT JUST COMPETE, BUT COLLABORATE: LOCAL IMAGE-TO-IMAGE TRANSLATION VIA COOPERATIVE MASK PREDICTION

Jun. 2021

The IEEE International Symposium on Biomedical Imaging (ISBI)

Venice, Italy

MULTI-CLASS ARTEFACT DETECTION IN VIDEO ENDOSCOPY

Mar. 2019

The IEEE International Symposium on Biomedical Imaging (ISBI)

Venice, Italy

ISBI 2019 C-NMC CHALLENGE: CLASSIFICATION IN CANCER CELL IMAGING

Mar. 2019

IEEE International Conference on Big Data and Smart Computing (BigComp)

Shanghai, China

INTELLIGENT FAULT DETECTION VIA DILATED CONVOLUTIONAL NEURAL NETWORKS

Jan. 2018

Department of Computer Science and Engineering, IIUC

Chittagong, Bangladesh

PRESENTER FOR INTRODUCING RECENT TRENDS OF COMPUTER SCIENCE

Feb. 2017

Industrial Innovations & Technology Transfer

Developing DIU Alumni Election Portal

I provided academic and technical supervision throughout the design, development, and deployment of the DIU Alumni Association Election Portal, leveraging DIU's faculty and student resources. Our contribution included guiding requirement analysis, ensuring secure software engineering practices, validating system architecture, and overseeing the development workflow to maintain accuracy, transparency, and data integrity. We ensured the timely implementation of core features—voter authentication, secure ballot management, real-time result monitoring, and an administrative control panel—resulting in a reliable and user-centric digital voting platform.

Meter Reading Snapshot Validation using CNNs

We have developed and have deployed an automated image validation process for DPDC using CNNs to identify and eventually resolve the complaint against meter readers about not visiting the customers' premises to properly record the energy consumption. We leverage a state-of-the-art CNN architecture to detect such useful images using a transfer learning mechanism and handed over the technology to the organization. The solution was recognized with national ICT awards in 2020 under two distinct categories: (i) Research & Development (R&D), and (ii) Technology (Artificial Intelligence). This is a potential solution for image-based automatic meter reading, specifically for developing countries like Bangladesh as well.

Low-cost IoT-based Power Interruption Monitoring System

We have designed a low-cost IoT-based solution to automatically evaluate two standard key performance indicators for the continuation of power supply in a distribution network. On the top of the solution, we have developed a web-based real-time power interruption monitoring system for further power outage analysis, strategic decision-making, and improved customer service. Importantly, this work has received national ICT awards in 2020 under two different categories: (i) Digital Government, and (ii) Internet of Things.

Open Source IP-PBX System for Accountable Customer Support Service

Traditionally, legacy phone-based PBX systems are deployed to provide customer support services, where operators are appointed to receive calls and respond to customers' queries or complaints. Unfortunately, such a system severely lacks accountability from support service personnel. There are often cases where the operator is not at his desk while the phone is ringing or may deliberately leave the phone unattended, misbehaving with customers, not registering complaints and doing the necessary follow-ups, and so on. There is very little system support for the management to monitor and track such inappropriate conducts from the support service employees. However, replacing the legacy PBX system with an IP-PBX system will enable all of these desirable features. I developed such a system as part of my M.Engg. project and deployed it for the customer support service at DPDC using an Asterisk-based open-source IP-PBX system. The company provides support services for a large portion of its customers through this channel now.

Supervising and Mentoring Activities

Coaching Team Bangladesh for International AI Olympiads

Serving as a coach and core academic team member of the Bangladesh Artificial Intelligence Olympiad (BdAIO), contributing to national team selection, training, mentoring, and preparation for international AI competitions. Coached Team Bangladesh for the inaugural Asia-Pacific Olympiad in Artificial Intelligence (APOAI) 2026, where Bangladesh achieved a historic debut by securing 3 of the 10 Gold Medals. **The winning team was invited to meet the Honorable Prime Minister of Bangladesh, Tarique Rahman, in recognition of this historic success.** Also contributed as a mentor to Team Bangladesh for the International Olympiad in Artificial Intelligence (IOAI) 2025 in Beijing, China, where the team earned two Bronze Medals and one Honorable Mention.

Mentoring Junior Researchers

I dedicated myself beyond the scope of my research projects, exhibiting exceptional mentoring abilities by providing guidance and supporting junior researchers within our research group. I played a substantial role in advising and organizing the technical perspective of several studies. In addition, I participated in the writing of the manuscripts, ensuring that these manuscripts were error-free, which ultimately led to the acceptance of several co-authored papers in top-notch conference venues, such as CVPR, NeurIPS and so on.

Supervising Company's Projects

I oversaw a variety of projects during my time at DPDC. In the beginning of my career at DPDC, I was responsible for developing several web applications and leading the maintenance of various servers. Later, I was in charge of an innovation team in generating innovative project ideas to serve different organizational goals of DPDC. After completing my PhD studies, I went back to work at DPDC where I led two major projects. Both initiatives were awarded winning trophies at the 2020 national ICT awards 2020 under several categories (please see 'Industrial Innovations & Technology Transfer' for more details). I also acted as the corresponding author for two research articles during this time.

Selected Competitions

Brain Tumor Segmentation (Advisor)

11/2021

HELP CHALLENGE 2021, ASAN MEDICAL CENTER, SEOUL, SOUTH KOREA

- Position: 1st place.
- Competition site: Internal (Private connection through VPN only)

Brain Tumor Segmentation

3/2019

HELP CHALLENGE 2018, ASAN MEDICAL CENTER, SEOUL, SOUTH KOREA

- Position: 2nd place among 11 teams.
- Competition site: <https://www.synapse.org/#!/Synapse:syn15569329/wiki/582412>

Airbus Ship Detection Challenge

11/2018

KAGGLE

- Position: 103/883 (Top 12%)
- Competition site: <https://www.kaggle.com/c/airbus-ship-detection>

RSNA Pneumonia Detection Challenge

10/2018

KAGGLE

- Position: 62/1499 (Top 5%)
- Competition site: <https://www.kaggle.com/c/rsna-pneumonia-detection-challenge>

Mercedes-Benz Greener Manufacturing

7/2017

KAGGLE

- Position: 73/3835 (Top 2%)
- Competition site: <https://www.kaggle.com/c/mercedes-benz-greener-manufacturing>

Intel & MobileODT Cervical Cancer Screening

6/2017

KAGGLE

- Position: 38/848 (Top 5%)
- Competition site: <https://www.kaggle.com/c/intel-mobileodt-cervical-cancer-screening>

Training Attended

Daffodil International University

DSC, Birulia, Ashulia, Savar, Dhaka

- **Training of Trainers (ToT) Programme on Intellectual Property, Innovation, Patent and Commercialization Education Initiative**, Jul. 2026,
 - The session provides training on Intellectual Property, Innovation, Patent and Commercialization Education Initiative.
- **Workshop on OBE Curriculum Practice and CQI**, Jun. 2026,
 - The session provides training on OBE Curriculum Practice and CQI for Accreditation Readiness.
- **Training on IonCUDOS**, Aug. 2025,
 - The session provides hands on training on new IonCUDOS software for course file preservation.
- **Developing a Teaching Dossier/Portfolio**, Aug. 2025
 - This session provides valuable insights into preparing an effective teaching dossier that reflects academic philosophy, contributions, and professional growth.
- **Training session on exam invigilation duties**, Aug. 2025
 - This session provides guidance on the rules, regulations, and proper etiquette required for conducting invigilation duties effectively.
- **Learner-Centric Classroom for Teachers**, Jul. 2025
 - The session aims to enhance skills for making classes more learner-centric.
- **Engaging Classroom and Interactive Teaching**, Jun. 2025
 - This insightful session focuses on engaging Classroom and Interactive Teaching.
- **Teaching Dossiers and How to Make It for Teaching Career**, May. 2025
 - This insightful session focuses on the importance of teaching dossiers—what they are, how to create them effectively, and how they can significantly support your growth as a professional educator in higher education.
- **Workshop on Lab Course File Preparation According to OBE**, Mar. 2025
 - This session helps prepare lab course files according to OBE.
- **Using AI for Teaching and Lesson Planning**, Feb. 2025
 - AI-driven strategies to enhance classroom engagement, streamline lesson planning, and optimize student learning outcomes.
- **Workshop on Course File Preparation and Outcome-Based Education (OBE)**, Feb. 2025
 - This session guides participants in preparing course files and Outcome-Based Education (OBE).
- **Orientation and Induction Training for Newly Appointed Teachers**, Jan. 2025
 - These insightful sessions assist in familiarizing with academic standards and practices.

Dhaka Power Distribution Company Limited (DPDC)

Dhaka, Bangladesh

- **Annual Performance Agreement (APA)**, Apr. 2021
 - Training program for KPI achievement.
- **Prepayment Metering System**, Sep. 2015
 - Training program on prepaid metering system.
- **Training of the Trainer (TOT)**, Aug. 2015
 - Training program for trainers.
- **Procurement of Goods, Works And Service**, Apr. 2015
 - Training program for enhancing procurement skills.
- **Personnel Management Information System and File Tracking System etc**, Jun. 2014
 - Training program on personnel management and e-filing system.
- **Practical Application of Total Quality Service (TQS) Software**, Jan. 2014
 - Training program on practical application of total quality service software.
- **Introduction to Organization, Power System Network Operation, Commercial Activities, etc.**, Apr. 2013
 - These sessions help understand power system network operation, commercial activities, and so on.
- **Professional Ethics, Organizational Behavior, etc.**, Oct. 2012
 - These sessions assist in familiarizing with ethics, organizational behavior, and so on.
- **Customer Care**, Apr. 2012
 - This training helps understand the mechanism for better customer service.
- **Performance Improvement & Better Customer Service**, Apr. 2011
 - This session helps understand how to improve performance and provide better customer service.
- **Orientation Training Program**, Apr. 2009
 - These insightful sessions assist in familiarizing with the organization and its business.

Others

- **Public Procurement training course Under PPRP-II**, The Central Procurement Technical Unit (CPTU), Apr. 2010
 - Professional program to enhance procurement skills for professionals and government officials, aiming to make the public procurement system transparent, accountable, and well-functioning.

Honors & Awards

2026	Coach , Team Bangladesh, The Asia-Pacific Olympiad in Artificial Intelligence (APOAI)	China
2026	Judge , IEEE International Congress on AI & Digital Health Innovation (ICADHI 2026), DIU	Dhaka, Bangladesh
2026	Judge , The Infinity AI BuildFest 2026, BRAC University	Dhaka, Bangladesh
2026	Co-Convener , AI Project Competition 2026, Daffodil International University	Dhaka, Bangladesh
2026	Judge , National AI Build-a-thon 2026, MillionX Bangladesh	Dhaka, Bangladesh
2025-26	Mentor and Coach , Bangladesh National AI Team, International Olympiad in AI 2025	Beijing, China
2025	Convener , Agentic AI Competition, Daffodil International University	Dhaka, Bangladesh
2025	Judge , Bangladesh AI Olympiad 2025 organized by DIPTI	Dhaka, Bangladesh
2025	Judge , 3MT Competition, Daffodil International University	Dhaka, Bangladesh
2024	Member, Technical Setup , ACM ICPC Asia Dhaka Regional 2024	Dhaka, Bangladesh
2021	Brain Pool Invited Scientist , Scholarship by the Korean government	NRF, South Korea
2021	1st Place (Role: Advisor) , HeLP Challenge 2021 (Brain Tumor Segmentation)	Seoul, South Korea
2021	Champion - Research and Development , National ICT Awards 2020	Dhaka, Bangladesh
2021	Winner - Technology (Artificial Intelligence) , National ICT Awards 2020	Dhaka, Bangladesh
2018	2nd Place (Awarded KRW 1,000,000) , HeLP Challenge 2018 (Ch1: Brain Tumor Segmentation)	Seoul, South Korea
2009	Nationwide one of the ten top scorers (Awarded BDT 100,000) , ACI Limited	Dhaka, Bangladesh
2007	18th Place , The ACM Asia Programming Contest (ICPC Dhaka site)	Dhaka, Bangladesh

COURSERA BETA TESTER COMMUNITY

Jul. 2016 - Current

- The Coursera Beta Tester Community is a dedicated group of experts and enthusiasts who explore Coursera courses before they open to the public and provide feedback to help instructors improve course materials. Beta testers play an invaluable role in helping Coursera deliver the highest quality learning experience that benefits millions of learners around the world.
- Coursera selects learners who have excelled in specific subject areas on Coursera and demonstrated an enthusiasm for online learning.

General Secretary

Chittagong, Bangladesh

COMPUTER CLUB AT IIUC

Mar. 2007 - Feb. 2008

- Successfully planned, organized and executed major events - programming contest, software contest, quiz contest, open source campaign, math Olympiad, seminar, workshop, IT debate, IT festivals, and so on.
- Led executive meetings and planned the strategic development and goals of the computer club.
